

AAAL'TO

infrastructure

anchor

catalog

AAAL'TO infrastructure department is specialised in manufacturing anchor rods, anchor bolts, tie rods, standard and special bolts, fixings for heavy machines, studs, forks, tie rod systems, couplers, turnbuckles, welded sub assemblies.

With our expert knowledge, innovations, machines, experience in anchor production, we are able to manufacture rolled threaded pieces up to diameter 160 mm, very thick welded sub assemblies for bracing connections or articulated basis for bridges, anchor bolts for the construction of stadiums, industrial complexes, railways and transport of energy.

Whatever threading, welding, bending, machining you need, we can do it with any material construction steel, alloy steel, standard and special stainless steel.

Our philosophy: expertise and innovation to improve the operational performance of each client.

AAAL'TO is supporting:

- > Innovation and new production technologies.
- > Research and development of new products related to the evolution of mining technology.
- > Teaching to perpetuate our skills.
- > Qualifying trainings to meet the evolution of our job.

Factory

13 000 sq. meters factory floor
3000 tons/year of steel processing
on 30 machines

Experience

Anchors produced for over 200 structures
70% of our production dedicated to export
/ in 14 countries

Capacity

Machining from M8 to M160 /
from 0 to 14 meters long
with any kind of steel

Quality

Our products are tested and verified
Steel and accessories of European origins'
Traceability guaranteed

« French manufacturing process, European raw materials guaranteeing quality, security and competitiveness make AAAL'TO a reliable actor, recognized by the leading operators around the world. »

Jean-Marie LAMBERT - General Manager

MANUFACTURING

PRODUCTION
from UNIT to
LARGE series

MATERIAL
steel/alloy steel/ inox/
bronze/ plastic

PROTECTION
galvanization/ zinc
coating/ paint/ ...

PACKAGING

We package according to our customer's needs.

Wooden boxes, pallets, bundles with steel strapping, etc...

« With our experience and our numerous references in all the sectors where the technical know-how of the company skilled workers matters, we are the true partner for our customers. »

Véronique Le Provost - Export Manager

CERTIFICATIONS

AEO certification

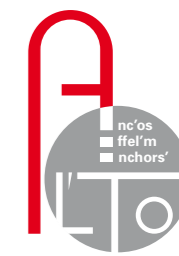

AAAL'TO quality control document

Raw material recycling certification

Use of green energy certification
